

French Learning Platform – Project Master Plan

1. Project Vision

Build an interactive French learning platform that guides learners from beginner (A1) to proficient (C2), covering all four language skills:

- 📖 Reading
- ✍️ Writing
- 🎧 Listening
- 🗣️ Speaking

The application will:

- Be built with Next.js
 - Be deployed on Vercel
 - Support progressive learning paths
 - Include interactive exercises
 - Track learner progress
 - Use AI features where appropriate
 - Eventually support A1 → C2 levels
-

2. Technology Stack

Frontend

- Next.js (App Router)
- TypeScript
- Tailwind CSS
- shadcn/ui components

Backend

- Next.js API routes
- PostgreSQL
- Prisma ORM

Authentication

- NextAuth/Auth.js

Storage

- Database for progress tracking
- File storage for audio content

Optional AI Features

- Speech recognition
 - Pronunciation scoring
 - Writing feedback
 - Conversation practice
-

3. Learning Structure

The application will follow the CEFR framework:

A1 → A2 → B1 → B2 → C1 → C2

Each level contains:

```
Level
├── Units
│   ├── Lessons
│   ├── Exercises
│   ├── Quiz
│   └── Assessment
```

Example:

```
A1
├── Unit 1: Greetings
├── Unit 2: Numbers
├── Unit 3: Family
├── Unit 4: Food
└── Unit 5: Daily Life
```

4. Four Skill System

Reading

Activities:

- Reading passages
- Vocabulary highlights
- Fill in the blanks
- Multiple choice questions
- Sentence ordering
- Reading comprehension

Progress tracking:

- Reading speed
 - Accuracy
 - Vocabulary learned
-

Writing

Activities:

- Copy sentences
- Complete sentences
- Write short paragraphs
- Guided compositions
- Free writing

AI features later:

- Grammar checking
 - Suggestions
 - CEFR scoring
 - Error explanations
-

Listening

Activities:

- Native audio clips
- Dictation
- Listen and choose

- Fill missing words
- Story comprehension

Difficulty progression:

A1:
Very slow speech

A2:
Simple conversations

B1:
Normal conversations

B2+:
Native speed audio

Speaking

Activities:

- Repeat after speaker
- Pronunciation practice
- Shadowing exercises
- Question-answer practice
- Conversation simulation

Future AI features:

- Pronunciation scoring
- Accent feedback
- Fluency score
- Conversation practice bot

5. Database Structure

Core entities:

Users
Levels
Units
Lessons

Exercises
Vocabulary
Audio
Progress
Achievements
Quizzes
Assessments

Example:

```
User
└─ Progress
    └─ Level
        └─ Unit
            └─ Lesson
                └─ Exercise
```

6. Gamification

Features:

- XP points
- Daily streaks
- Achievements
- Badges
- Leaderboards
- Progress bars
- Weekly goals

Example badges:

- First Lesson
 - 7 Day Streak
 - 100 Words Learned
 - First Conversation
 - A1 Graduate
-

7. Roadmap for All Levels

A1 — Beginner

Topics:

- Greetings
- Introductions
- Alphabet
- Numbers
- Family
- Colors
- Food
- Time
- Daily routines
- Shopping

Goal:

- Survive basic conversations.
-

A2 — Elementary

Topics:

- Travel
- Work
- School
- Weather
- Hobbies
- Directions
- Past experiences

Goal:

- Handle common everyday situations.
-

B1 — Intermediate

Topics:

- Opinions
- News

- Culture
- Health
- Experiences
- Narratives

Goal:

- Communicate independently.
-

B2 — Upper Intermediate

Topics:

- Debates
- Professional communication
- Abstract ideas
- Formal writing

Goal:

- Communicate fluently.
-

C1 — Advanced

Topics:

- Academic French
- Professional French
- Advanced grammar
- Complex arguments

Goal:

- Work and study in French.
-

C2 — Mastery

Topics:

- Literature
- Philosophy
- Native-level conversation
- Academic discourse

Goal:

- Near-native proficiency.
-

8. Initial MVP (Version 1)

Focus ONLY on A1.

Include:

- ✓ User accounts
 - ✓ Progress tracking
 - ✓ Dashboard
 - ✓ Vocabulary cards
 - ✓ Reading exercises
 - ✓ Writing exercises
 - ✓ Listening exercises
 - ✓ Basic speaking practice
 - ✓ Quizzes
 - ✓ XP system
-

9. A1 Curriculum Structure

Unit 1

Greetings and Introductions

Lessons:

- Bonjour
 - Je m'appelle
 - Nationalities
 - Basic conversation
-

Unit 2

Alphabet and Pronunciation

Lessons:

- French alphabet
 - Accent marks
 - Pronunciation basics
 - Speaking practice
-

Unit 3

Numbers and Time

Lessons:

- Numbers 0–100
 - Dates
 - Clock
 - Calendar
-

Unit 4

Family and People

Lessons:

- Family members
 - Descriptions
 - Age
 - Relationships
-

Unit 5

Food and Shopping

Lessons:

- Food vocabulary
 - Ordering food
 - Shopping dialogue
 - Prices
-

Unit 6

Daily Life

Lessons:

- Routines
 - Activities
 - Days
 - Months
-

10. Project Development Phases

Phase 1

- Setup Next.js project
- Authentication
- Database

Phase 2

- Course structure
- Lesson system

Phase 3

- Reading module

Phase 4

- Writing module

Phase 5

- Listening module

Phase 6

- Speaking module

Phase 7

- Progress tracking

Phase 8

- Gamification

Phase 9

- AI features

Phase 10

- Expand from A1 to C2
-

Final Goal

Create a complete French learning platform that:

- Covers A1 through C2
- Teaches Reading, Writing, Listening, and Speaking
- Tracks progress
- Uses AI assistance
- Works on desktop and mobile
- Serves as both a learning platform and a professional portfolio project.
